PROJECTS

Realtime Chat Application Using NodeJs and SocketIO (03/2020 - 07/2020)

The project must allow multiple users to chat together. The messages must be updated without refreshing the page. For simplicity we will be avoiding the authentication part.

Responsive Website Using HTML, CSS & JavaScript (03/2021 - 04/2021)

I make a website where students will learn three key website programming and design languages: HTML, CSS and javascript and will create a web page using basic elements to control layout and style.
